Serving North Spokane County

Address Sign Request

The District facilitates a program to provide, at no charge to the resident, property address signs. The purpose of the program is to enhance the District's ability to provide timely responses of fire and emergency medical services when called upon.

The District emergency response crews are dispatched in the event of an emergency call to a specific address. The response may occur during the day or night and under all-weather conditions. If the responding crew is unable to locate the specific address at which the emergency conditions exist, providing the required emergency services could be delayed, and could result in serious medical or fire consequences to the victim or the property.

Our crews will have utilities located and install the signs, however if you choose to install the sign yourself please display the property address sign as requested by the District to improve the emergency service protection provided by the District. There are many factors involved in providing emergency medical and fire responses and the District cannot and does not make any assurances or guarantees that the use of the sign will improve response times.

The District's Operational funds are used primarily for personnel, equipment, facilities, and supplies. To help offset the costs associated with this address sign program, the District gratefully accepts voluntary donations. No donation is required to receive the property address sign. The full amount of any donation is tax deductible. Materials alone for each sign cost approximately \$45.00. If you have any questions, please call 509-467-4500

The District is a municipal corporation under the laws of the State of Washington and donations to the District are income tax deductible pursuant to Internal Revenue Service regulations.

Donations should be made payable to Spokane County Fire Protection District No. 4 and sent to SCFD4 315 E Crawford Deer Park, WA 99006. If additional information is needed, please contact the District Office at (509)467-4500.

Due to weather and ground conditions, address signs will only be installed from March 31 to November 1. The placement of the sign on your property could take six to eight weeks.
